# Minuteman 3800 Rider Scrubber

**Minuteman 3800 is ideal for use in:**

- Office Buildings
- Grocery Stores
- Department Stores
- Schools and Universities
- Manufacturing Plants
- Warehouses
- Parking Garages

## High Performance from a Powerful Rider Scrubber.

Minuteman's 3800 Rider Scrubber delivers a dependable, fast and powerful performance at an affordable price, every time. This comfortable, long-lasting and highly maneuverable rider scrubber is compact and designed with a wide 38" scrub path to provide maximum productivity for the hardest and most demanding maintenance projects.

## Innovative Solutions. Patented Genius.

Minuteman has again surpassed the competition with a unique solution/recovery tank system, which utilizes a patented Maxi-Wall™ bladder, that moves between two tanks allowing the scrubber to have a 66 gallon solution/recovery tank. Constructed of high impact polyethylene, the large tanks and flexible bladder provide a longer scrubbing time and easy tank filling/flushing.

**Operator Friendly** - The 3800's convenient operator control panel constantly monitors operations. A cushioned operator seat with a built-in safety switch and a 5 position tilt steering wheel enhance operator comfort.

## Durable, Rugged Construction. Long-lasting Performance. On-the-spot Maneuverability.

Built on a solid, channeled steel frame with steel plating, the 3800 Rider Scrubber will perform for years with the same exceptional outcome in both commercial and industrial markets. A single front wheel drive provides optimum traction and allows the 3800 to turn 360 degrees on its own axis for on-the-spot maneuverability.

**Shown with optional Sweeping System Plus (pre-sweep attachment)**

Specifications:	Minuteman 3800
Scrub Path	38" (97cm)
Squeegee Width	43" (109cm)
Scrub Brushes	2-20" (51cm) Rotary Discs
Brush Speed	300 RPM
Brush Pressure	3 Variable Settings: Light, Medium & Heavy
Brush Motor	Two 1-hp
Linear Speed	0-6 MPH
Scrub Speed	Variable and programmable
Solution Tank Capacity	66 gallons (250 liter)
Recovery Tank Capacity	66 gallons (250 liter)
Vacuum Motor	3/4-hp, 3-Stage
Squeegee (Rear)	Curved, 4-sided, break-away, swing-type, no tools needed to change assembly or blades
Squeegee (Side)	Gum rubber blade attached to brush cover to contain solution and direct flow to rear squeegee
Off-Aisle Scrub System	Brush/squeegee tool, hose and wand
Dimensions (LxWxH)	78" x 43" x 60" (198.12cm x 109.22cm x 152.4cm)
Weight	2,300 lbs. with batteries 1,564 lbs. without batteries (with batteries - 1,043kg; without batteries - 709kg)
Wheels (Front)	3-1/2 x 14" solid w/cross-hatch (9cm x 36cm)
Wheels (Rear)	4" x 14" solid (10cm x 36cm)
Drive Motor	2-hp Traction Drive
Batteries	6 - 6 volt, 370 AH
Options	Recycling system, chemical metering, back-up alert, dual headlights, rotating beacons, dual vacuum system, overhead guard, Sweeping System Plus
